

## ***Animal Fact Sheet***

All the kids in Tammy's grade did a project on animals. One way of presenting information on an animal is to make a fact sheet. In the space below research an animal and write the information under the headings. If you're a very imaginative person you may like to make up a fact sheet of an animal you have created!

Animal name -

What it looks like -

What it eats -

Where it lives -

The noise it makes -

Height and weight -

In the space below draw a picture of your animal -
