

Australia's Emblem

As you probably know the Kangaroo and Emu are on the emblem of Australia. This is because both of them cannot move backwards and show that Australia will not move backwards either. Lots of other animals could be on the Australian emblem. Write a reason for each animal saying why it would be a good on the national emblem. The first two have been done for you.

Kookaburra

Because it laughs a lot and so do Australians.

Sea Lion

It loves the water and lots of Australians live on the coast and love swimming at the beach.

Platypus

Wombat

Possum

Galah

Bilby
