

Camel Brochure

Many items can be made from camels and camel products are popular in some areas of Australia and the World. Camel Products include -

Meat - Camel meat is low in fat and high in body building protein and iron. It can be smoked or cooked in sausages or burgers.

Milk - Camel milk is sweet and can be used in milkshakes and ice cream.

Leather - Camel leather is flexible and can be used to make boots, hats, jackets, sporting goods, wallets and belts.

Wool - Camel wool is similar to cashmere, and can be used to make rope, mats, clothing, blankets, scarves and hats. Fine camel hair is used in artist's brushes.

Cosmetics - Camel oil is used to make soaps and creams.

Pretend you work for a company that produces camel products. Plan, design and make a brochure explaining your products. Include drawings of your products, prices and uses. Your brochure should also have a slogan like -

'Nothing's sweeter than a camel milkshake!'
