

### Stuck in the trees

The baby elephant was found jammed between two trees. How could this happen? She could have been scared by something or maybe she was playing a game? Come up with a way you think the baby elephant became stuck. Write a paragraph explaining how it happened. Write the paragraph from the perspective of the baby elephant.

After you have written your first paragraph, switch perspectives. Write your second paragraph from the perspective of the baby's mother. Outline your rescue attempts.
