

Everyone is different!

Everyone is good at different things. It is important to remember in everything you do that you are proud of your personal best. It doesn't help comparing how good other people are to you.

In the space below trace your hand. On each finger write something you are good at. You may be good at drawing like Grace. Or good at music like Tammy. You can also draw a picture above each finger of you doing the thing you're good at.

On the palm of your hand write the thing you are very best at!
