

Help the Environment

The Super Parp-Buster has an important message. It tells us that people travelling in one big bus create less pollution than lots of people travelling in lots of cars. There are lots of other ways you can help the environment. They may only seem small but every bit counts! Under the heading write some things you can do. I've included one under each heading to get you started.

Rubbish

Put it in the bin

Water

Shorter showers

Nature

Stick to walking tracks
instead

Transport

Ride your bike

of parents driving
