

## How Did They Live?

On page 32 Julia ponders how the early settlers lived. Their houses only had two rooms. Where did they put all their stuff? Where did they eat, sleep and cook? Use books and the internet to research how early Australian settlers lived. Write a report on what they ate, the design of their houses, how many people were in an average family and where did they get their food from? Include any additional information you would like to include.

When you are finished as an extra challenge you may like to predict how people will live in the future.
