

# SHIRL AND THE WOLLOMBY SHOW

Welcome to one of the sideshows at the Wollomby Show! This sideshow is called Make 10! To start, place a counter on the black square. Flick the first counter using another counter. Whatever shape the first counter is touching when it stops is your score. If your counter stops and is not touching any shapes you score 4 for that flick. To win your score must be 10 after three flicks. Good luck!
