

Writing Music to Animals

Writing music to the movement of animals can be fun. Tammy did it in the story to the movement of her uncle's ducks. Choose an animal to watch. It may be a sea gull, your pet dog or cat or even a rabbit. Make up a sound and symbol for each movement your animal does. If you were watching a dog you might do the following -

Action	Sound	Symbol I write
Dog sits	Clap my hands once	#
Dog walks	Stomp my foot	!
Dog eats	Click my fingers	*

Watch the dog and write down the symbols each time it does an action. After a while look at your symbols and play the music you have written.

Here's some space for you to have a go -
Animal I'm watching _____

Action	Sound	Symbol I write

Write your symbols here as you watch the animal -

Now have a go at playing your animal music!
